READING THERMAL

Table Top 410

The Reading Thermal SCORPION® 2 Profiling System is a standard in the baking industry providing a complete system to measure the four key baking parameters: Temperature, Air Velocity, Heat Flux and Humidity. The SCORPION® 2 enables you to monitor real-time in-process conditions giving you the critical information you need to correct problems and maintain optimum process conditions. The New SCORPION® Software (SV8) enables bakers to easily comply with the FSMA Kill Step Validation Requirements.
