WORKHORSE AUTOMATION

Table Top 503

Established in 2003, Workhorse Automation, Inc. specializes in the engineering and application of automated solutions for the commercial baking industry. Workhorse Automation, Inc. provides turnkey automated bakery solutions that can be implemented into Customer's new lines or retrofitted into existing lines. Every solution from Workhorse Automation, Inc. is designed with the inherent flexibility, reliability and productivity that accompany truly innovative automated and robotic systems.

At Workhorse Automation, Inc., we work with the customer to provide flexibility and real value, through standards rather than proprietary solutions. The Customer defines what is important. This approach is the reason why Workhorse Automation, Inc. is a leader in innovative solutions.
